Description	TED-Ed is a platform for teachers and students around the world that offers hundreds of videos, lessons and open online discussions (and a space to customise lessons). The Visual Arts Lessons category on TED -Ed focuses on art-related topics and aims to get learners to understand and appreciate different aspects of visual arts.

	<p>The visual arts lessons cover a wide range of visual arts topics including famous artworks, art history, art techniques, art appreciation and much more. The lessons are designed to be engaging and informative, combining animation with educational content to facilitate learning and exploration.</p>
